PRIMARY ELECTION ON 6/24/25

AFTON TOWN COUNCIL SEAT

I am Earl Wayne Colley. I am seeking election to the Town of Afton council. My reason for running for this seat is to ensure that the residents well being will be the Board's top priority. I am a NYC/NYS licensed engineering contractor and retired after 28 years of service. I was the co-president of the Central NY Landowners Coalition. Please vote for leadership and to "protect our way of life".

Vote Colley and Wicks!

Paid Political Advertisement

My name is Jason Wicks and I'm running for Afton Town Council. I've lived in Afton with my wife and 4 children for several years. You may know me from my music career around Central New York and beyond, or from the Afton fair where I took over as President last year. I look forward to bringing that hard work and knowledge to the town, the same way I have the fairgrounds. I want to see the town thrive again with fresh ideas and enthusiasm to make Afton a better place to raise our families. I sincerely look forward to your support!

Vote Wicks and Colley!

The survey, available at <https://www.surveymonkey.com/r/SZFMX9G>, is quick and easy to complete, taking only 5 to 10 minutes of your time. It is open to all adults ages 18 and older, with a request for one survey per adult in each household. Most importantly, your responses will remain completely anonymous, ensuring that your opinions and experiences are confidentially recorded.

“The information collected from this survey will play a crucial role in shaping future health initiatives in Delaware County,” said Amanda Walsh, Delaware County Public Health Director. “We strongly encourage all residents to participate and have their voices heard.”
How You Can Help:

- Visit <https://www.surveymonkey.com/r/SZFMX9G> to access the survey.

- Encourage fellow community members to participate.

Delaware County Public Health thanks you for your time and effort in contributing to this important cause. Together, we can create a healthier future for our community.

JUNE IS DAIRY MONTH!

6 MAIN BREEDS OF DAIRY COWS

AYRSHIRE
A breed of dairy cattle that originated from the County of Ayr in Scotland. The average mature Ayrshire cow weighs 1,000-1,300 pounds and has red markings that can vary in color from orange to brown.

BROWN SWISS
Originated on the Swiss Alps. Known for producing the second largest quantity of milk annually of any dairy breed, their milk averages 4 percent butterfat and 3.4 percent protein which makes it ideal for cheese production. Brown Swiss are gray-brown in color and are known for their immense size, large ears and docile temperament.

GUERNSEY
A small, cream-and-brown breed of dairy cattle that produces more milk per unit of body weight than any other breed. Guernseys are renowned for the high butterfat content of their milk. Bred on the British Channel Island of Guernsey and descended from cattle stock brought from nearby Normandy.

HOLSTEIN
A black and white dairy cow (though there are some "Red Holsteins") that is the most predominant breed of dairy cattle worldwide. The Holstein originated in the province of Friesland, The Netherlands. They are known for having the highest milk production of all of the breeds of dairy cattle.

JERSEY
A breed of dairy cattle that is renowned for the high butterfat content of its milk. Jersey cows are smaller than other breeds (800 to 1,200 pounds) and are known for their big eyes, honey-brown color and docile natures.

MILKING SHORTHORN
A breed of reddish-brown and white dairy cattle that originated in Britain. They are large in size.

FAQ - About Cows
How much milk does a cow give each day?
On average, a cow will produce 6-7 gallons of milk each day.

What do cows eat?
Cows eat about 100 pounds of feed each day, which is a combination of hay, grain and silage (fermented corn or grass). They drink a lot of water too – up to 50 gallons a day.

How many stomachs do cows have?
A cow has one stomach with four different chambers, which is why many people say that a cow has four stomachs.

How many breeds of dairy cattle are there?
There are six main breeds of dairy cows: Ayrshire, Brown Swiss, Guernsey, Holstein, Jersey and Milking Shorthorn.

What do you call male and female dairy animals?
Males are called bulls. Females, prior to giving birth, are called calves or heifers. Once they give birth, female dairy animals are called cows. All cows give milk once they have a calf.

Dairy Definitions 1

Milk is approximately 87 percent water and 13 percent solids. As it comes from the cow, the solids portion of milk contains approximately 3.7 percent fat and 9 percent solids-not-fat. Milkfat carries the fat soluble vitamins A, D, E, and K. The solids-not-fat portion consists of protein (primarily casein and lactalbumin), carbohydrates (primarily lactose), and minerals (including calcium and phosphorus). Milk also contains significant amounts of riboflavin and other water soluble vitamins. Federal definitions and standards of identity specify the minimum levels of milkfat and solids-not-fat for the various milks shipped in interstate commerce.
